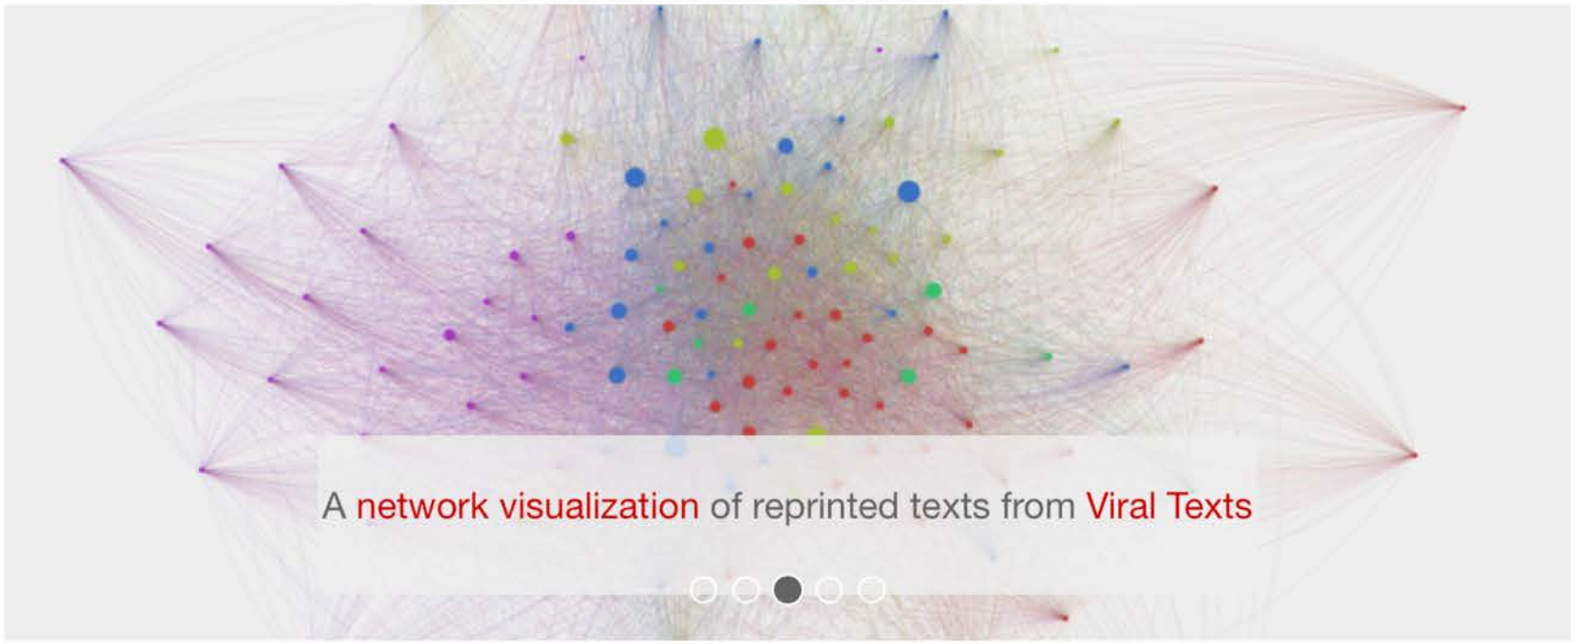
Digital Scholarship Group

Welcome to the Digital Scholarship Group



A network visualization of reprinted texts from Viral Texts

The Digital Scholarship Group is part of Northeastern University Library's digital scholarship services, supporting digital modes of research, publication, and collaboration at Northeastern. We provide expertise, infrastructure, and strategic guidance for researchers and projects, and we offer a wealth of activities to help you get involved and learn more.

Find out here about our introductory and advanced workshops, our services and projects, and how to apply for support. Please contact us or schedule a consultation to learn more about how we can help. We look forward to working with you!

CALL FOR PROPOSALS

The 2017 CERES Exhibit Toolkit Call for Proposals is now open, including new classroom opportunities! Apply here!

GET INVOLVED!

- Join the NUDigital announcement and mailing list.
- Follow us on Twitter @NU_DSG
- Visit our DH Open Office Hours!

UPCOMING EVENTS

- **NULab Panel: Feminist Methods in Digital Spaces**
  March 13 @ 10:30 am - 12:00 pm

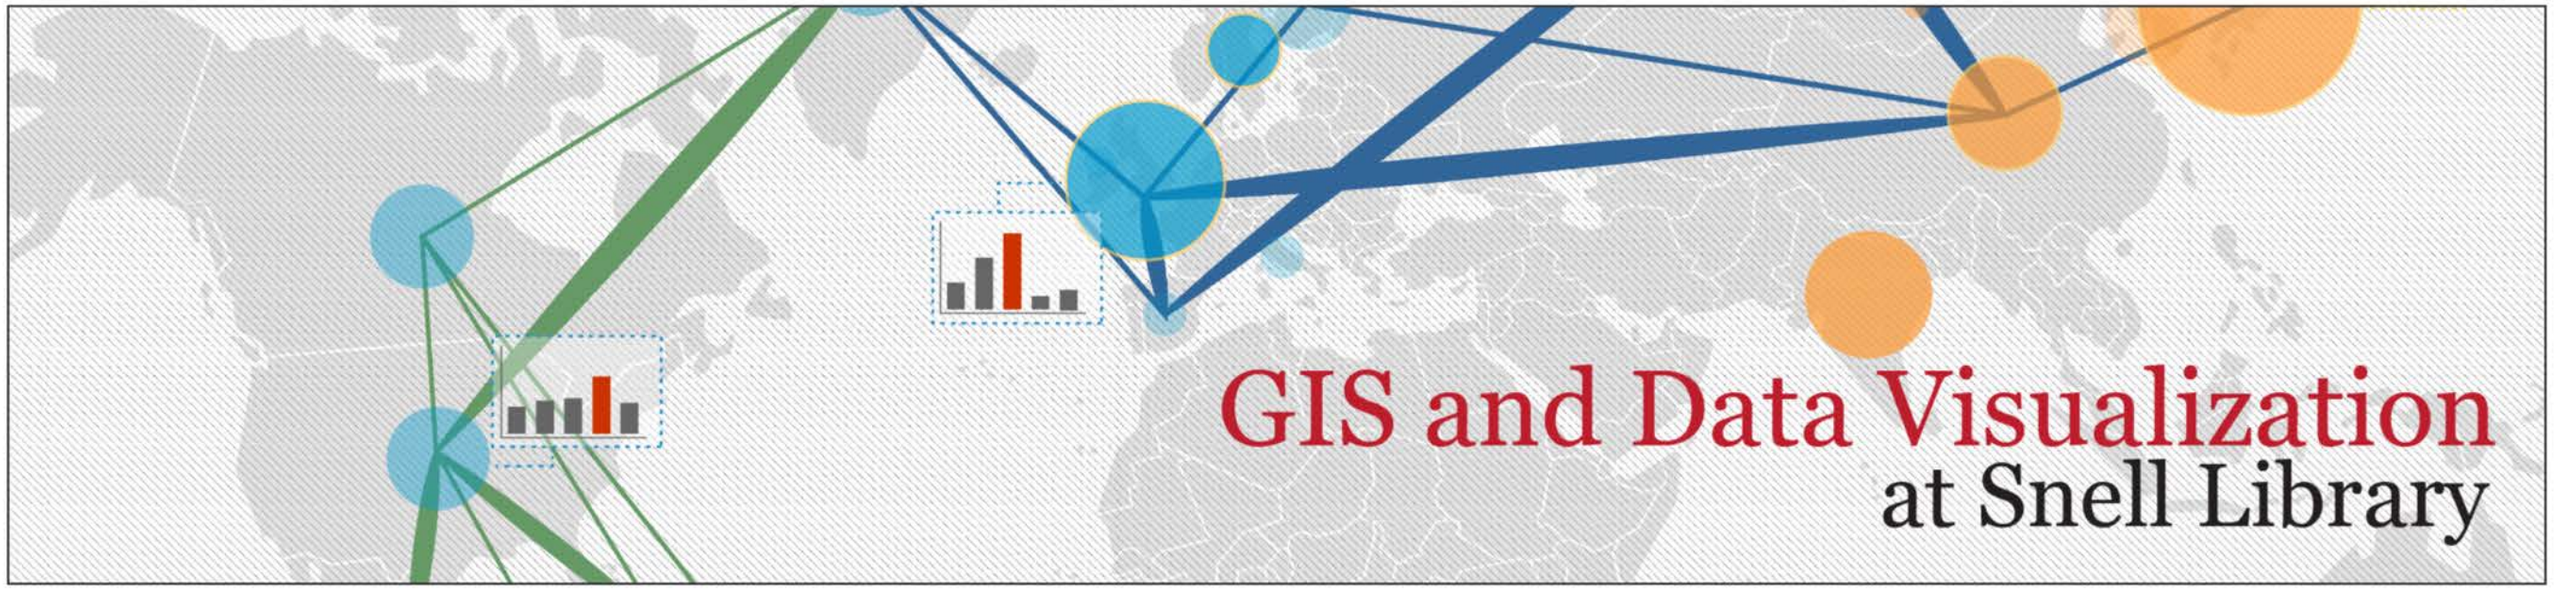
GIS and Data Visualization: Home



Data Analytics and Visualization Specialist

Questions about data visualization?

Please contact Steven Braun, the Data Analytics and Visualization Specialist, for further assistance.

Questions about data visualization or GIS?

Come to our walk-in office hours, open to students, faculty, and staff!

Wednesdays, 10 AM - 12 PM

Thursdays, 1 - 3:30 PM

Snell Library, Room 243

Can't make our office hours? Email us to schedule an appointment.

Note: GIS and Data Visualization Office Hours are canceled Wednesday, March 14 due to concurrent workshops held in the morning of that day. If you need further assistance, please email Steven or Bahare to set up an appointment.

GIS Specialist

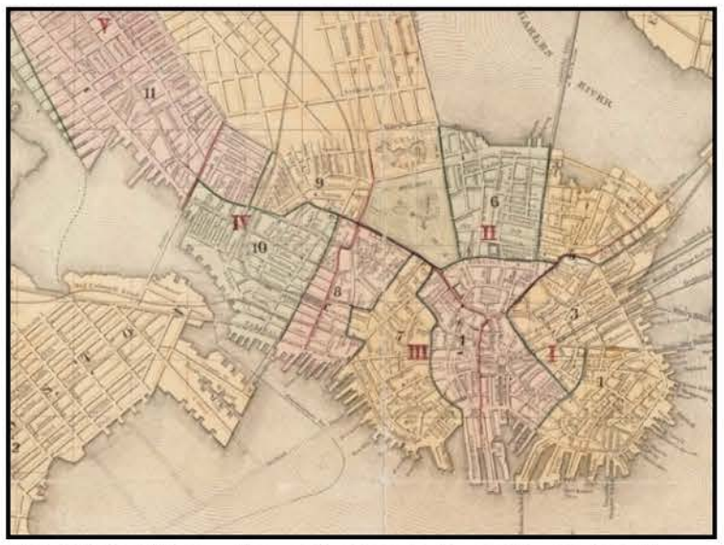
Questions about GIS, spatial analysis, or digital mapping?

Please contact Bahare Sanaie

The Northeastern University Libraries' Digital Scholarship Group is engaged in an intensive preliminary planning and design process for a new digital research initiative focused on the city of Boston. Generously funded by a planning grant from the Andrew W. Mellon Foundation, this design process involves the development of prototypes, design plans, and technical specifications that will guide the development of a full-scale suite of tools, data, and staff. The BRC is hosted at Northeastern but is designed to be a collaborative effort among many organizations in Boston—civic, research, teaching, and cultural heritage—with intensive planning devoted to developing institutional partnerships and fostering community engagement.

The planning phase focuses on a set of pilot projects that represent a range of disciplines, research questions, and data sources. Each pilot will develop a detailed specification and prototype that includes sample data, data analyses and visualizations, and usage scenarios that will in turn shape the horizons of the larger BRC.

In its full form, the Boston Research Center (BRC) will unify, for the first time, unique special collections related to Boston, data generated by the government, citizen groups, social media, digital modes of scholarship, and a wide array of researchers to offer scholars a seamless environment for studying the city's history, communities, and cultures.



The BRC will be a dynamic research center that will enable scholars and communities to generate and operate on an array of archival materials and data in new ways, to draw upon a wide range of digitized resources and data sets, and to analyze multiple sources together through new services. The BRC will connect research collections of images, maps, texts, audio and video files, as well as spatial, temporal, and statistical/numeric data collections.

CIVIL RIGHTS & RESTORATIVE JUSTICE

The Reading Room is a space to explore documents in the CRRJ Burnham-Nobles Archive, and learn about the incredible stories of family members whose cases CRRJ has taken on. There are over 500 cases in the Archive, with the Reading Room being a small sample. The files contain government documents, photographs, interviews and interpretive essays about legal developments.

ENTER THE READING ROOM

The Headlight is the online blog of the Civil Rights and Restorative Justice (CRRJ) law clinic at Northeastern University School of Law in Boston, Massachusetts, featuring the most current work of the CRRJ Clinic.

READ THE HEADLIGHT

The CRRJ Annual Reports page features annually authored year-end reports for the CRRJ law clinic as well as other publications from CRRJ.
